Music Captains
Student Council Members
Every Day Counts- Please make sure your child is at school every day!

It’s term 1!

Classes are settled with manageable class sizes and teachers and students have begun the exciting work of learning new things in new contexts. Our Intervention and Support team led by Heather Craig is working with students and our first specialist support visits from our Guidance Officer Libby Howlett and Speech Language Pathologist Chris Calnan have occurred. Our Academy (extension) programs have begun (with Ms Smith and Ms Murray) and Music, Physical Education and Languages programs are providing students with opportunities in those areas.

Our challenges this year are to continue our innovative curriculum work in English, Maths and Humanities, all of which address the requirements of the Australian Curriculum, but ensure that each year level is learning the things they need to know to progress sequentially to the next year. In 2017, we will be developing new Science and Health / Physical Education (HPE) programs, again based on the Australian Curriculum, again ensuring that our students are taught what is required by the Australian Curriculum. Our Pedagogical Framework also ensures that students are not only taught from the best constructed Curriculum but are also taught in the best possible ways.

Please feel free to talk to your child’s teachers about the work happening in the classrooms

Independent Public School happenings.

Our next School Council meeting will be 8 March. Next fortnight I will also be attending the IPS Annual Conference on Wednesday and the State Schooling Conference on Thursday and Friday. IPS gives us the flexibility to do the work outlined above, to use our school budget more innovatively and to employ the expert staff we need to make a difference for our students. HR functions, including a one line HR budget are now in our workframe and we continue to largely manage our Facilities and environment. Again this would not be happening to anywhere near the same extent without IPS.

Prep Vision Screening

The Qld Government has re-introduced a vision screening program for Prep aged children which will be provided by trained QH nurses. Shortly we will be contacting all Prep parents with an expression of interest in participation. This is a screening program only with the purpose in mind to identify any potential vision difficulties. Parents can then seek advice from appropriate medical providers. All children develop differently in the sensory areas, however if you have any concerns related to vision or hearing for any aged child please consult the relevant medical professional. Even a quite small level of sensory loss can make a difference to learning.

School response to emergency circumstances.

Our school, along with all others, is required to have a thorough Emergency Response Plan, designed to deal with not just fire or safety lock downs but also many forms of local and broader safety issues. Initial local emergency responses may involve evacuation of all or part of the school, for example in the event of fire or other hazard which made occupation of the building/s unsafe. Alternatively, a lockdown might be initiated if an intruder were present on the site. Other safety actions involve the support of Emergency Services and Police. Our Critical Incident Response Plan is linked to other schools and to Emergency Services, Police and Local Government plans.
A MESSAGE FROM OUR PRINCIPAL

In the event of an emergency occurring we will contact you – most likely via text message- when we are able, to explain the situation and advise of the actions which are required. It is important to note that if a serious incident were to occur, our primary concern will be with the safety of all students first and foremost. Our next priority will be with Emergency Services and Police. In situations where disaster situation is declared, Police management takes over. Our next priority will be general communication with parents.

Glenview sport:
Nambour District Swimming Trials - 16 February
Year 5/6 camp – 20/22 Feb
Brisbane Roar – Soccer Experience Program Wednesdays 8, 15, 22 March

Housekeeping:
Car parking is always a challenge at peak times. Please use the designated carparks in the designated areas. Help keep our children safe! Please do not pick up or set down children from roadways, car park access roads etc. or any other area which increases the risk of accident or injury to children or adults.

Allergies and Anaphylaxis:
Would you kindly ensure that all food brought into the school for lunches, snacks etc. is entirely free of any nut or nut related products. Your cooperation here is vitally important to ensure that student’s lives are not put at risk.

OH, THE PLACES YOU’LL GO!
You have brains in your head. You'll get mixed up, of course, as you already know. And will you succeed?
You have feet in your shoes. You'll get mixed up with many strange birds as you go. Yes! You will, indeed!
You can steer yourself So be sure when you step. (98 and ¾ percent guaran-
Any direction you choose. Step with care and great teed.)
You're on your own. And tact and remember that KID, YOU’LL MOVE
you know what you know. Life’s A Great Balancing Act.
And YOU are the guy who’ll decide where to go.

Wisdom for the week: Dr Seuss of course!!

School Hours: School begins at 8:40 a.m. and finishes at 3:00 p.m.
Lex Heilbronn
Principal
Definition: ‘Resilience – the ability to cope in times of stress or hardship.’

As parents we work to equip our children with the tools they need to solve their own problems, to respond to difficulties, to feel good about themselves and others, and to perceive the future in a hopeful and confident manner.

It would be great if all children arrived with a Do it Yourself Manual but here are some ideas to help your child become resilient.

Brooks and Goldstein talk of 10 key principles for resilience:

- Be empathetic – teach understanding of how another person might feel, recognize your own feelings
- Communicate and listen effectively – and respond to what your child is saying
- Love your children in ways that make them feel special and appreciated – let them know you love them unconditionally.
- Accept your child for who they are and help them to set reasonable goals – goals for today, and goals for the future. It’s good to work towards something.
- Help them experience success in whatever they show competence in (even if it’s collecting bugs)
- Focus on positives, reword negative talk – sometimes the positive may be hard to see, but it’s there. Always end a conversation with something positive. Instead of saying ‘don’t do’, say what you want your child to do.
- Help them to understand that ‘mistakes’ are just things yet to be learnt
- Develop responsibility, compassion and social awareness by providing opportunities where your child can contribute or give back to others.

Teach your child to solve their own problems and make appropriate decisions (What’s the problem? What are the choices? Which is the best choice? Try it. If it doesn’t work review your choices.) This also helps them to take responsibility for their actions.
In following these principles we will contribute to helping our children be resilient, to be emotionally healthy, and equipped to successfully confront challenges, and bounce back from setbacks.

Adapted from ‘Raising Resilient Children’ by R. Brooks and S. Goldstein

**HEAD LICE TIPS**

---

Head Lice Treatment And Prevention Tips

by Dr Kerryn Greive (PhD)

Like any medication, with head lice treatments it’s important to read the instructions to get the most out of your treatment.

Head Lice have a life cycle that lasts up to 21 days, so it’s really important that parents treat an infested child as directed to break the cycle and kill all lice and eggs effectively.

**Prevention tips**

1. Lice can’t fly or jump. They transfer by direct head-to-head contact, so school kids are advised to avoid swapping hats in the playground.
2. Long hair should be tied back in pigtails or a pony tail. This makes it harder for the lice to get access to the hair and don’t allow children to share hairbrushes.
3. Chat to other mums about head lice and do a quick check of the hair every night if you can. The quicker you get on top of an infestation the easier it will be to clear it.

**Treatment tips**

1. Choose natural pesticides as the scientific evidence shows that head lice are building up resistance to many synthetic pesticides.
2. Follow ALL the instructions on the pack. Head Lice can be very frustrating, but this frustration can be compounded if the instructions aren’t followed carefully.
3. Look for a treatment type that suits. MOOV offers three different types of treatment so you should be able to find a product that works for your whole family.
4. Defend when you know head lice are about. Prevention is better than cure. MOOV Head Lice Defence can help you defend against head lice.

Don’t they look great!
ART COUNCIL IS COMING SOON

Australia Changing Over Time

Our heritage of changing technology and life style.

With just over 100 items of clothing, toys, tools, utensils and all manner of paraphernalia spanning more than 120 years, this show is a mini mobile museum. Children are shown how with advances and changes all manner of things have become easier to do, less expensive and our expectations of daily life continue to rise.

Many children will be surprised to see that the first recorded music was sold on cylinders. Then came the more familiar flat circular records (78, 45 and 33 rpm), reel to reel tapes, cassettes then CDs before the advancement to MP3 and iPods.

Using newspapers, magazines and children’s books from the early 1900’s to current day, students see how much the print media has evolved. Of course it started around 350 years ago with text and sketches printed with black ink on white paper. However, in the past 120 years printing has changed dramatically with black and white photographs, then colour and that colour printing has changed from stylised primary colours to the vivid, realistic printing that we have today.

Australia Changing Over Time is so much more than a show and tells with a bunch of old stuff. It’s a fun, live theatre experience. Winnie the Western Quoll is forever interrupting with her mischievous comments and antics. Students are shown how a few decades ago, after school, children would often go hunting for their dinner and when Ferris the Ferret escapes it takes Ruth and Tim all their skills and the cooperation of the entire audience to get Ferris back in his ferret box. There are “What is this and what was it used for?” games and dress ups when students get to realize just how restrictive some clothing was, while other clothing styles were just wild, way-out and even weird.

Australia Changing Over Time is a whole bunch of educational fun designed to make students aware of how the Australia we live in today and speculate on what lies ahead for us all.

What schools have said about the actors’ and producer’s previous school productions:

Excellent This show was relevant to the national curriculum. It was extremely well written, well performed and very very funny. One of the best shows I have seen in 16 years of education.

Nathan Somerville, Prep to Year 6, Wavell Heights State School, Wavell Heights, Qld. 24/06/2015.

From the students “really really really good! Perfect, amazing, spectacular. The best show ever!! Sensational, fantastic, hilarious, funny and very talented.”

Kathy Lehane, Prep to Year 6, Salisbury State School, Salisbury, Qld. 21/08/2015.

Very Enthusiastic! Students were engaged right from the start. Great way to share facts/history with students.

Mary McCulloch, K to Year 6, Our Lady Star Of The Sea Catholic Primary School, Exxandra, WA. 29/04/2015.

Curriculum Relevance. History: The effects of changing technology on our lives over time and the people and events that brought these changes about.

Price: $6.60 per student ($4.00 + $2.60 GST). Family concession available.

Suitable: Prep, K to Year 2.

Minimum Audience Size: 10 students.

Times: Show: 50 minutes. Set up: 45 minutes. Pack up: 40 minutes.

Requires an indoor performing area 3m deep x 7m wide.

SCHOOL PHOTOS ARE COMING

Glenview State School Photographs will be taken by “Portrait Patch” on

Tuesday 7th March 2017

With a reshoot for absent students on Monday 13th March

All students will be photographed so as to be included in their class group.

If you wish to order photographs there are two payment options:

1. Online Option by using the link below:

   Please note: Online Sibling Package orders must be completed before 12 noon Monday 6th March.

2. Pre-payment Envelope Option issued to the youngest students in each family. Families wishing to purchase photo packs by cash or money order are required to return these envelopes to SCHOOL OFFICE no later than 9am on the day of the photo shoot. Please ensure your sealed envelope contains the correct monetary amount, as change will not be available.

   Please note: If ordering online there is no need to hand in an envelope.

   Please ensure all students are in full uniform on Photo Days.

   Thank you!

URGENT NOTE FROM THE OFFICE

If a family deposited money into the school account on 24/01/2017 from the Bank of Queensland please contact office. There was no reference name applied to the transaction.

Thank you
Will you help us with our latest venture???

the P&C would like to give parents a break from school lunchbox stress on Friday mornings and trial a “Tuckshop Day” at school on Fridays, starting Friday 3rd March.

We are aiming to trial the service each Friday for the months of March and April. We would like to provide food for sale over both lunch breaks.

We have our menu planned and are lucky enough to have the enthusiastic Kirsty Osborne on board to get things going. Our menu will be sent out following approval at tonight’s P&C meeting.

We are looking for a few key people to help us turn this goal into a reality. We need volunteers who are able to give approx. 3 hours of their time each week. Volunteer shifts would be 8.30 am – 11.30am, and 11.30am- 2.30pm. Even if you can only spare an hour or so, we need your help! Roster sheets will go up outside classrooms soon.

Without enough volunteers to prepare and assemble food orders, we will not be able to commence. If successful we would like to continue the service all year. It’s a great way to give our kids yummy healthy food and raise funds that go directly back to our children. We all win!

Sponsors needed.... We are seeking sponsorship for our sports ribbons. If you are interested in becoming a sponsor please contact Jodie Buemi or Noleen Coleman for details.

The P&C meet on the second Tuesday of each month for our general meetings at 6pm in the staffroom. Please feel welcome to join us and share your ideas. We will begin discussing fundraising projects and calendar for 2017. We look forward to welcoming new faces and fresh ideas to the committee.

AGM will be held on the 28 Feb 2017

6pm in Staff Room. Please contact Richard for further information.

DISTRICTS SWIMMING

Congratulations to the following students who will be part of the Small Schools Swimming Team to participate in the Districts Trials on Thursday:
Ben Mc, Cooper, Ollie G and Alex.
Mrs Wallace and Mrs Bingham will be accompanying our students.
Good luck!
Isn’t our new logo great!

We love it so much we would like to have it painted on the wall inside our centre.

We are asking for quotes from anyone in our school community in a painting/design field.

If you are interested, please pop in before or after school and chat to Richard about placement and size required.
Having fun while getting fit right here at school!

Sick of saying you’re going to do something about your health & fitness each new year but never do anything about it??

I run boxing and Metafit classes at the school hall straight after school pick up! Kids play in the playground while you workout!! The first step is the hardest, but once you start you will love it!
First class is free to all new members. No experience is required as I teach you as you go. Everything supplied.
All fitness levels catered for, go at your own pace!
Boxing is only $10 for an hour and Metafit is only $5 for half hour.. No excuses at these prices!
For those who prefer to work one on one with me I also offer Personal Training at my gym which is local off Glenview Rd..
Call or text me on 0456700777 to find out more. Men are also very welcome to join.. no sissy boxing sessions here!
Cheers!

BRING HOME A BIG BROTHER OR SISTER AND BRING FRENCH CULTURE TO LIFE!

Why not volunteer to host an international student from France mid year? We have a small group of delightful French students coming to Australia for 10 weeks to immerse in local Australian culture, experience our High schools, sports, environment and lifestyle. Arriving in June, all the French students are around 15 years old, speak excellent English, have their own spending money, cover all school expenses, and we arrange all aspects of their program. They are looking forward to joining an Australian family for a short term. It’s fun and interesting to help these young people achieve their Australian dream. If you’d like know more, please email your interest to Rob at Inter Cultural Management on rob.lindsay@icm-education.com.au or call 0438 689828.

Footy Kidz - Rugby League for Children of Different Abilities

I am Kristy Bignell, Team Manager for Footy Kidz - Rugby League for Children of Different Abilities. Registration for 2017 season is now open and I would appreciate if you could please pass the following information onto relevant families in your school community.

The program is for girls & boys aged between 5-16 years, living with challenges such as asthma, autism, aspergers, cerebral palsy, down syndrome, emotional, social, neurological and/or psychical disabilities.

Falcons Footy came to fruition in 2013, as a joint initiative of the Intrust Super Cup’s, Sunshine Coast Falcons and the NRL Game Development Sunshine Coast and in 2016 Footy Kidz was launched.

It is an specialised rugby league program, which assists in developing social and motor skills for children with challenges, whilst having fun in a supportive and safe environment.

Footy Kidz allows children with challenges the opportunity to participate in a team sport and be a part of a club that supports and encourages differences.

However, Footy Kidz extends from just providing a team sport:

- For many of the Footy Kidz Dad’s and Mum’s, it was the first time they had been able to take their child to a football game, something they never thought was possible but had always dreamed of;
- Many of the children have found a passion for sport that never existed before;
- It provides a stress free activity for many of the parents;
- It has also provided a much needed stepping stone for some of the children to develop their skills to transition with confidence into a local junior league club.
- Facilitates meeting NRL and ISC players at smaller safe events as many of the children will never make it to games or game days.

Plus it is a positive environment for families with children with challenges to meet and form friendships.

Footy Kidz is a positive environment that encourages children with challenges and their families to come along and experience the all inclusive game of Rugby League.

For more information and to register please go to our facebook page ~ Falcons Footy - Rugby League for Children of Different Abilities

or contact me directly.

Volunteers required for water stand at the Mooloolaba triathlon on Sunday 12th March. Please contact Lex Heilbronn for more information.
