2016 SCHOOL CAPTAINS
**Every Day Counts- Please make sure your child is at school every day!**

**Welcome:**
A very sincere welcome to students, parents and carers and to all in our Glenview community, particularly those families who join us for the first time in 2016. We are all looking forward to an exciting year with many changes and challenges to take place.

Please feel free to email or phone or just drop in to the office if you have any ideas, concerns or suggestions at any time.

There are also some new faces in the school staff, Ms Louise Harrison joins us teaching grp F with Ms Martin, teaching group F on Ms Marie Rac joins us to teach Grp G with Ms Marek and Ms Tracy Webb joins us to teach Grp H with Ms Smith. Ms Marek and Ms Smith will resume their Curriculum support roles for 2016. Ms Laura Avery who joined us last year, will continue with her role as a teacher aide predominantly in the Prep area.

**Enrolments:**
Thank you to everyone for being so supportive and understanding around the possible and eventual formation of the new class. We have 208 children enrolled in the school today, and about 35 new families to the school. At 34 we also have the biggest Prep enrolment ever at Glenview. Our class sizes have gone from in some cases 31 to all being under 25. This brings benefits to both students and teachers.

**Independent Public School.**
From 1 January, 2016, Glenview was accorded the status of an Independent Public School. This will really enable us to continue to build a very strong Glenview Curriculum, taught by excellent teachers who know and understand the school’s pedagogy and who can have meaningful conversations with you about your child’s learning and progress.

The new IPS Principal’s Conference is to be held on 11/12 February. I’m looking forward to actually being able to get some more ideas into play.

**Glenview Learning Program (GLP)**
Throughout the latter part of 2015, we developed an alternate approach to some timetableing issues across the school. This was in response to teachers’ concerns for class continuity, maximising quality learning time, access to extension programs, teaching a wider range of key learning areas and implementing new syllabus requirements.

Our solution to these matters has been to realign the key learning areas (KLA) into STEM (Science, Technology, Extension, Mathematics), English, Humanities (Languages, The Arts- visual and performing), Health (inc Personal Growth) & Physical Education with increased contact hours each week and to allocate some specific times to specific learning activities. An additional bell is also now rung at 5 min before the end of 1st and 2nd break to assist children in getting into class on time.
The major visible difference is the allocation of a 1 ½ hr session each week to each group, on either a Tuesday or Wednesday where learning activities can be more personalised without taking time away from other KLA. In this session, our Academy (extension) programs will operate, facilitated by Ms Smith and Ms Murray, enabling students participation without absence from class. Students will be working with class teachers, specialists and teacher aides during on a series of skill building tasks, small group and individual learning, and practice and review tasks. We are currently referring to this time as GLP time.

In addition to these changes, Ms Martin will utilise Thursdays to assist teachers with the teaching of coding while Ms McDonald will continue her work with classes in digital technologies. Our Health and Personal Growth program be implemented to extend our work here across the full scope of the new ACARA health syllabus. Our Chaplain Nikki will be working with class teachers in this important areas on a fortnightly basis.

Contentious Issues in Education: Reading and Literacy

Each week we seem to have another media frenzy about what’s wrong with Education in Australia/ Queensland/secondary/ primary schools/ prep/ literacy. etc etc.

Last weekend’s headlines rattled up images of poor vocabulary in pre school aged children, citing studies which purportedly showed a decline in young children’s vocabulary and the potential impact on early reading success.

We know that meaningful conversation with young children is critical to their early learning- that constructive and intelligent conversation with them about what they see, hear, know, think and feel is critical, but so is spending time talking about the things in the world around them, giving them broad and varied experiences to learn about the world around them. Reading books, newspapers, magazines etc with and to them, discussing TV articles and discussing what you have learned from them is very good modelling. Chats with grandparents and other relatives about their lives and what they have experienced are invaluable. Doing these things will give your child a great start to school and your ongoing input in these areas as they progress through school will be immensely beneficial. Building and improving a child’s vocabulary starts with the spoken and progresses to the written use of new words. The more extensive the known word group is at any point in time – the better reading and comprehension will be.

Studies suggest that adults have an average vocabulary of 25-35 000 words with which they are familiar, but use only approximately 2 000 – 4 000 of these in the day to day context of their lives. We also have very different types of vocabulary which we use in different ways; a listening vocabulary (words we recognise and understand when we hear them) and speaking vocabulary ( words we understand and use in speaking) and reading vocabulary (words we can recognise and understand in text) and a written vocabulary (words we use and understand in writing).

Research also suggests that an average four year old has acquired knowledge of about 4 000 words and that this progresses much more rapidly once reading becomes functional. Highly expressive people may have vocabularies of in excess of 100 000 words, but would use these in the context of their work or study. 100 000 words aren’t really necessary if the rest of us only need 2-4000 to get through the day.

So to this end- please keep reading and talking to your child. Take the time to find new words to use as a family, find new ideas to share or reflect upon, so that the oral world stays just as alive and interesting for our kids as the digital one.
Facilities upgrades:
Some encouraging advice received from Central Office is that our internet bandwidth, recently upgraded from a 1.5 mb connection to a 3 mb connection will by around term 2/3 be upgraded to a 10 mb fibre optic connection. In real terms this will mean significant speed and bandwidth improvements which will really let us take advantage of the upgrades to WIFI and school network. Network load at peak times can be over 150 computers and other devices which places a huge impost on the network.

Glenview Sport:
Brisbane Roar – Soccer Experience Program Wednesdays 3,10, 17, 24 February
Nambour District Swimming Trials - 18 February

Housekeeping:
Car parking is always a challenge at peak times. Please use the designated carparks in the designated areas. Help keep our children safe! Please do not pick up or set down children from roadways, car park access roads etc. or any other area which increases the risk of accident or injury to children or adults.

Thank you to our patient and ever-caring school crossing supervisors, Amanda, Kirstin and Sean. Spare a thought for their dedication, being out there in rain, and heat each and every day. We really do appreciate all you do for us.

School Hours: School begins at 8:40 a.m. and finishes at 3:00 p.m.

Allergies and Anaphylaxis:
Would you kindly ensure that all food brought into the school for lunches, snacks etc. is entirely free of any nut or nut related products. Your cooperation here is vitally important to ensure that student’s lives are not put at risk.

Wisdom for the week: Dr Seuss of course!!

Biography Theodor Seuss Geisel (March 2, 1904 – September 24, 1991) was an American writer and illustrator best known for authoring popular children’s books under the pen name Dr. Seuss. His work includes several of the most popular children’s books of all time, selling over 600 million copies and being translated into more than 20 languages by the time of his death.

Geisel adopted his "Dr. Seuss" pen name during his university studies at Dartmouth College and the University of Oxford. He left Oxford in 1927 to begin his career as an illustrator and cartoonist for Vanity Fair, Life, and various other publications. He also worked as an illustrator for advertising campaigns, most notably for Flit and Standard Oil, and as a political cartoonist for the New York newspaper PM. He published his first children's book ‘And to Think That I Saw It on Mulberry Street’ in 1937. During World War II, he worked in an animation department of the United States Army where he produced several short films, including ‘Design for Death’, which later won the 1947 Academy Award for Documentary Feature.
After the war, Geisel focused on children's books, writing classics such as 'If I Ran the Zoo' (1950), ‘Horton Hears a Who!’ (1955), ‘If I Ran the Circus’ (1956), ‘The Cat in the Hat’ (1957), ‘How the Grinch Stole Christmas!’ (1957), and ‘Green Eggs and Ham’ (1960). He published over 60 books during his career, which have spawned numerous adaptations, including 11 television specials, four feature films, a Broadway musical, and four television series. He won the Lewis Carroll Shelf Award in 1958 for ‘Horton Hatches the Egg’ and again in 1961 for ‘And to Think That I Saw It on Mulberry Street’. Dr Seuss makes reading fun and nonsense have meaning. And just sometimes there are some gems in the words.

‘You have brains in your head and feet in your shoes. You can steer yourself any direction you choose!

Translating the message means: Have confidence in yourself, think for yourself, make your own decisions, choose wisely and well, success will follow, be responsible for yourself.

Self-direction and expectations. Use it at home- you never, never know!

Looking forward to a great year!

Lex Heilbronn
Principal

BENDIGO BANK IS HERE

You now have a choice to bank with Bendigo Bank or Commonwealth Bank through our school every Monday.

Student Banking Registration.
Sign up for student banking.

Now at Bendigo Bank
38 Lowe Street Nambour.
Or phone us on 07 54415255

Bendigo Bank
Bigger than a bank.
bendigobank.com.au
25 November 2015

Dear Parents/Guardians

**Student banking that gives back to your community**

We are very pleased to announce that Bendigo Bank is now authorised to offer student banking to Glenview State School.

What makes Bendigo Bank different from other banks is our unique focus on supporting and giving back to the community. Since inception, our Community Bank® initiative has reinvested more than $130 million across Australia to various community projects. This included a number of community projects within Queensland that funded interactive whiteboards for classrooms and transport to help children attend vocational activities.

We believe it’s never too early to teach children about the benefits of saving, which is why we have created our new PiggySaver Account that makes saving both fun and rewarding for kids.

A statement account with no account keeping fees, no transaction or government fees, no penalties and no deposit restrictions – plus a host of fun games and rewards – a PiggySaver Account makes saving fun.

It is anticipated student banking days will be held weekly, enabling your child to make regular deposits into their account. Please note, the student banking program provides a deposit service only, however, withdrawals can be made at any Bendigo Bank branch or agency.

To open a PiggySaver Account for your child, please come in and see us at Nambour Branch.

A certified copy of your child’s birth certificate will be required as identification for your child, whilst as their parent or guardian, you may also be required to provide 100 points of identification. Of course, if you already bank with Bendigo Bank your identification will not be required.

Should you have any queries please do not hesitate to contact us at the Nambour branch on 54415255.

Yours sincerely

Commonwealth Banking Program

Glenview State School is excited to offer the Commonwealth Bank School Banking program to all students.

The School Banking program provides children with an opportunity to deposit money into their Commonwealth Bank Youthsaver account at school each week. The program is about how often your child makes deposits, not how much they deposit.

To encourage regular savings behaviour the program offers an exciting Rewards Program. Every deposit earns your child a silver Dollarmites token, and once they’ve collected 10 tokens they can redeem them for a reward.

The rewards available during 2016 are:

- Flying Snake Tail
- Wildlife Writer Set
- Mud Splat Handball
- Outback Pat Bag Tag
- Backtrack Eraser Pen
- Jump and Skip Rope
- Bush Fly Fan
- Wriggly Glow Worm

School Banking is also a great fundraiser for our school. Our school receives $5 when a student makes their first ever School Banking deposit and 5% on every deposit made through the school (to a maximum of $10 per individual deposit).

Getting involved in School Banking is easy!

You can get involved in the School Banking program by opening a Commonwealth Bank Youthsaver account at your local branch. All you need to bring is your current identification as well as your child’s birth certificate. If you are an existing Commonwealth Bank customer and have NetBank, you can open an account online.

If your child has an existing Commonwealth Bank Youthsaver account they can start banking straight away. They just need to bring their deposit in every week on School Banking day using their Dollarmites deposit wallet.
Ladies help lose those Christmas kilos or just want to get fit, join Kylie’s boxercise classes or call her for a personal training session. See below for class times. If you would like more information on Kylie Read Personal Training sessions please call her on 0456 700 777 or check out her facebook page.

**Monday**
